WORK EXPERIENCE

2024–Present — Criteo, Product Designer, France
Designing complex B2B workflows for Criteo's Retail Media platform across campaign creation, targeting, bidding, and budget allocation.

- Led end-to-end budgeting and line-item setup improvements; partnered with Engineering to replace a costly dependency, reducing estimated development effort by ~15%.
- Used research and behavioural data to simplify a budgeting model with 200+ potential configurations, and defined success metrics including completion rate, invalid setups, and time to activation.
- Led cross-functional delivery of keyword targeting project, aligning Product, Engineering, Commercial, and GTM teams.

2020–2024 — Iponweb, UX/UI Designer, Cyprus

- Defined user personas, ran research, competitive audits, and heuristic reviews
- Designed UX flows, wireframes, prototypes, and UI systems
- Delivered visual design for both product and marketing (emails, presentations, print)
- Supported engineering through implementation and QA

2015–2020 — ABBYY, Designer → Lead Designer, Russia

- Specialized in infographics, presentations, and visual communication
- Led rebranding work: photostyle, presentation templates, iconography
- Developed guidelines for diagrams, timelines, and content visualization
- Collaborated globally to explain ABBYY tech clearly across media formats

2013–2015 — Winzavod Center for Contemporary Art, Graphic Designer, Russia

- Designed print and digital materials for exhibitions, events, and advertising
- Created visuals for special projects and cultural initiatives
